Implementation date:
8/1/2019
Case ID:
SC005257

McDowell Technical Community College notified that Commission of the intention to offer the Associate in Applied Science (A.A.S.) degree in Applied Engineering Technology and the Associate in Applied Science (A.A.S.) degree in Mechatronics Engineering Technology, effective fall 2019. The institution reports that the new offerings closely align with the existing programs in Industrial Systems Technology and Electrical Systems Technology and does not believe that these programs represent a significant departure from the current program offerings.

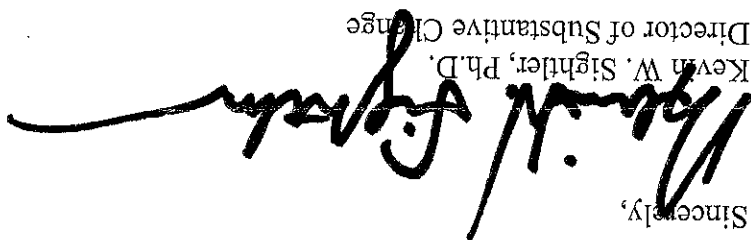

While courses from the existing programs will be used in the new degree programs, three new courses will be added to the A.A.S. in Applied Engineering Technology and two new courses will be added to the A.A.S. in Mechatronics Engineering Technology. No new faculty, library and learning resources, student support services, physical resources, or financial support will be required for the change.

We acknowledge the information.

Should you need assistance, please contact Dr. Denise Y. Young at 404-679-4501 or via email at dyoung@sacscoc.org.

Please include the Case ID number above in all submissions or correspondence about this substantive change.

Sincerely,

Kevin W. Sighler, Ph.D.
Director of Substantive Change
