Policy

McDowell Technical Community College facilities exist for the purpose of meeting the educational needs of its service area and are intended for such use. MTCC offers a wide range of credit curricula and non-credit extension courses. The facilities and grounds that comprise MTCC are to be used to facilitate these programs.

In addition, MTCC may make its buildings and grounds available upon reasonable condition for the periodic use of government agencies, organizations, and individuals of the community, provided that the activities involved are for the furtherance of the educational purposes of the College or are in promotion of the cultural and educational welfare of the community and provided that the activity does not compete with any class that is offered or could be offered by the College.

A fee schedule and procedures are in place to determine the fee, if any, that is associated with the use of MTCC's facilities by various groups. Any exception to the facility use policy or established fees must be approved by the President. The President has the authority to approve or deny the use of College facilities.
