What's your Learning Style?

Know your Learning Style: Knowing your preferred learning style is helpful in determining how you learn best. Three learning styles are often identified in students:

- **Auditory:** learning style where a person learns through listening. ... They also may use listening and repeating skills to sort through the information.
- **Visual:** Learners can utilize graphs, charts, maps, diagrams, and other forms of **visual** stimulation to effectively acquire information.
- **Tactile/Kinesthetic:** a learning style in which learning takes place by the students carrying out physical activities, rather than listening to a lecture or watching demonstrations.

If you would like to take an assessment to see how you learn best, go to How-To-Study.com (<https://how-to-study.com/>). *Once you determine your style, use the above techniques to help succeed in your studies.*

Study Resources:

If you are in a course in OpenLMS, you can access Tutor.com under "Resources" (free of charge)

English/Grammar Resources:
