Overview

IPEDS Student Financial Aid Component Overview - Public Academic Reporters

Welcome to the Student Financial Aid (SFA) component. The purpose of the SFA component is to collect information about financial aid provided to various groups of undergraduate students and military/veteran educational benefits for all students at your institution.

Data Reporting Reminders:

- Report data to accurately reflect the time period corresponding with the IPEDS survey component, even if such reporting is seemingly inconsistent with prior-year reporting.
- Undergraduate Student Groups
You will be asked to report information for different groups of students.
 - Group 1: All undergraduate students
 - Group 2: Of Group 1, full-time, first-time degree/certificate-seeking students (FTFT)
 - Group 3: Of Group 2, FTFT students who paid the lower of in-state/in-district tuition rate and were awarded any grant/scholarship aid from the federal government, state/local government, or the institution
 - Group 4: Of Group 2, FTFT students who paid the lower of in-state/in-district tuition rate and were awarded any Title IV federal student aid

*For public institutions, include only those students paying the in-state or in-district tuition rate. For program reporters, include only those students enrolled in the institution's largest program.

- COA Revisions
Revisions to Cost of Attendance (COA) used to calculate the net price of attendance can be made in this component. Consult the instructions and screens to make sure you are reporting the correct aid amounts for the correct groups of students.
- College Affordability and Transparency Lists
Net price amounts calculated in SFA will be used to populate the U.S. Department of Education's College Affordability and Transparency lists.
- Interactive Edits and Error Messages
SFA contains interactive edits that will check for blank fields, invalid values, or values that fall outside expected ranges. Some error messages will require you to confirm or explain the values that you entered. Some error messages are fatal and will require you to contact the IPEDS Help Desk at (877) 225-2568 for resolution.
- Context Boxes
You will find optional text boxes throughout SFA. Context boxes allow you to provide more information about the data you enter. Some of these context boxes may be made available to the public on College Navigator, so make sure that the information you enter can be understood easily by students, parents, and the general public.

Changes to reporting:

The following changes were implemented for the 2022-23 data collection period:

- Degree/certificate-seeking and non-degree/certificate-seeking data items were added in Parts A and B to disaggregate financial aid award amounts reported in Part B by these student categories.
- New FAQs were added to clarify concepts.
- Minor wording changes were made for clarification.

Resources:

- To access your prior year data submission for this component: [Reported Data](#)

Other

The information above in column 7 shows a difference of \$479,346 as having been awarded to what appears to be 'non-degree seeking' students. During the 2021-22 year, MTCC had HEERF funds that were awarded to students. These funds were awarded to students as a last dollar scholarship. Students were not required to be in a degree seeking program. As such, this caused more aid to be paid (included in this count) than 'normal' for MTCC.

Section 1: Comparison Chart

Comparison Chart

Reporting Reminders:

- Based on the information reported on the previous screens for Group 1 (all undergraduates) and Group 2 (full-time, first-time degree/certificate-seeking undergraduates), this comparison chart seeks to help institutions check their reported data. Assuming that the information on Groups 1 and 2 is correct, then the calculated fields for 'All Other Undergraduates' should be the balance (Group 1 minus Group 2). If the balance does not check with your institution's calculations, please correct your reported numbers for Groups 1 and 2 before moving forward with the completion of the SFA survey component.

Note:

- Data for the 'All Other Undergraduates' will appear in the IPEDS Data Center for data users, but not in College Navigator.

Student Financial Aid

Source	Description	Severity	Resolved	Options
Screen: Part A - Establish your groups				
Screen Entry	The number entered is outside the expected range of between 27 and 31 based on data reported by your institution in the prior year Fall Enrollment survey. Please correct your data or explain. (Error #7189)	Explanation	Yes	
Reason	There was a slight increase in enrollment from fall 2020 to fall 2021 that accounts for the increase.			
Screen: Part B - Enter Information about Group 1				
Perform Edits	The fiscal year for this institution exactly matches the coverage period specified in SFA (July 1 to June 30) therefore, we would expect the grant/scholarship aid awarded in SFA (\$2,537,203) to be similar to the scholarship/fellowship revenue reported in Finance (\$1,887,640). Please review your data and make any necessary corrections, or explain. (Error #7415)	Explanation	Yes	
Reason	The difference is due to aid awarded being reported in the Student Financial Aid survey while the Finance survey is tracking aid that was disbursed.			
Perform Edits	The number of Group 1 students who were awarded federal student loans reported in Part B (line 03) means that less than 5% of all undergraduate were awarded this type of aid. Please correct your data or explain. (Error #7337)	Explanation	Yes	
Reason	MTCC does not participate in the federal student loan program.			
Related Screens	Part A - Establish your groups, Part B - Enter Information about Group 1			
Screen: Part C, Page 2 - Enter Information about Group 2				
Screen Entry	The average amount of this type of aid awarded to Group 2 students is outside the expected range of between 213 and 787 when compared with the prior year value. Please check the number of students and the total amount of aid awarded to these students, and correct or explain the discrepant values. (Error #7147)	Explanation	Yes	
Reason	A single scholarship was awarded to a single student. This scholarship was one of our larger scholarship awards for the year. This accounts for the increase.			
Screen Entry	The average amount of this type of aid awarded to Group 2 students is outside the expected range of between 4,326 and 4,900 when compared with the prior year value. Please check the number of students and the total amount of aid awarded to these students, and correct or explain the discrepant values. (Error #7147)	Explanation	Yes	
Reason	Due to an increase in enrollment, we saw an increase in the amount of Pell Grant awarded to students, which increased this average above prior years.			
Screen Entry	The average amount of this type of aid awarded to Group 2 students is outside the expected range of between 294 and 868 when compared with the prior year value. Please check the number of students and the total amount of aid awarded to these students, and correct or explain the discrepant values. (Error #7147)	Explanation	Yes	
Reason	With HEERF/CARES funds, this average was increased. HEERF/CARES funds were awarded to students throughout the 2021 year, which accounts for the 'other federal grants' section being larger than in previous years.			
Screen Entry	The average amount of this type of aid awarded to Group 2 students is outside the expected range of between 4,151 and 4,725 when compared with the prior year value. Please check the number of students and the total amount of aid awarded to these students, and correct or explain the discrepant values. (Error #7147)	Explanation	Yes	
Reason	The total of federal grants is increased due to CARES/HEERF funds received and distributed in 2021. This accounts for the increased amount of total federal grants.			
Screen Entry	The average amount of this type of aid awarded to Group 2 students is outside the expected range of between 1,225 and 1,799 when compared with the prior year value. Please check the number of students and the total amount of aid awarded to these students, and correct or explain the discrepant values. (Error #7147)	Explanation	Yes	
Reason	There was an increase in 0 EFC students, which drove down the amount of state grants awarded, causing the average to decrease.			

Screen Entry	The average amount of this type of aid awarded to Group 2 students is outside the expected range of between 4,794 and 5,368 when compared with the prior year value. Please check the number of students and the total amount of aid awarded to these students, and correct or explain the discrepant values. (Error #7147)	Explanation	Yes	
Reason	Due to the increase in enrollment and the additional federal (CARES/HEERF dollars), the average per student in 2021 is increased over previous years.			
Screen: Part D - Enter Information about Group 3				
Perform Edits	The values reported for the number of Group 3 students in 2021-22 and the total amount of aid they were awarded (Part D, line 02) make the average amount of aid awarded to these students outside the expected range of between 3,608 and 6,700 when compared with the prior year value. Please correct your data or explain. (Error #7319)	Explanation	Yes	
Reason	Due to CARES/HEERF funds being included in the federal awards, this increases the average award per student.			
Related Screens	Part D - Enter Information about Group 3			
Screen Entry	The number entered is outside the expected range of between 46 and 84 when compared with the prior year value. Please correct your data or explain. (Error #7169)	Explanation	Yes	
Reason	There was a dip in enrollment in the 2020-21 year, accounting for the drop.			
Screen Entry	The number entered is outside the expected range of between 26 and 48 when compared with the prior year value. Please correct your data or explain. Perform Edits	The average amount of aid per grant/scholarship awardee (8,847.39) for 2021-22 in the "\$0-30,000" income group is larger than expected based on the cost of attendance. Please review your data and make any necessary corrections or explain the discrepancy. (Error #7388)	Explanation	Yes	
Reason	We saw an increase in enrollment and based on our geographic area and our 'typical' student, this yielded more students enrolling that were in the \$0-30K income bracket.			
Perform Edits	The average amount of aid per grant/scholarship awardee (7,920.57) for 2021-22 in the "\$30,001-48,000" income group is larger than expected based on the cost of attendance. Please review your data and make any necessary corrections or explain the discrepancy. (Error #7389)	Explanation	Yes	
Reason	We did see a slight increase in enrollment in the 2021 year and this also yielded a small increase in students in the \$30,001-48K income bracket.			
Screen Entry	The total amount of grant or scholarship aid awarded to Group 4 students from the federal government, state/local government, or the institution across all income levels is outside the expected range of between 103,047 and 171,743 based on the prior year value. Please correct your data or explain. (Error #7333) This edit and explanation were retained from the prior year (for reference) and do not need to be re-explained in the current year edit report. Explanation	Yes	
Reason	Our cohort was only 35 total.			
Screen: Military Servicemembers and Veteran's Benefits				
Screen Entry	This value is out of range compared to the prior year amount. Please correct your data or explain. (Error #7265)	Explanation	Yes	
Reason	The enrollment levels of the veterans fluctuated from the prior year, causing the dip in the average amount.
